Crystal Lilies creates weddings with style, elegance and timeless beauty. We suggest unique concepts and unexpected elements that reflect each bride's unique personality and taste. In our studio you will meet with Kimberley to privately review extensive portfolios of our work. As a floral artist, Kimberley has the experience and expertise to make your wedding a success.

Flowers help define a mood, establish a sense of style and create texture. Whether you find yourself in a ballroom overflowing with luscious roses, or catch the scent of the bride's gardenia bouquet as she walks down the aisle, flowers invite our senses to depart from our everyday lives and transport us to a magical environment.

Crystal Lilies specializes in using only the most beautiful flowers, seasonal botanicals, fruits, berries, natural and unique elements, whether local or from around the world.

We are wedding specialists, from the concept and design to the finishing touches on your special day. Whether grand or intimate, Crystal Lilies is there for every detail to make your wedding truly memorable.

Exquisite flowers will make your wedding unforgettable.

Bravo! member since 1995
